

# THE BRITISH COLUMBIAN.

NO. 54. VOL. 7.]

NEW WESTMINSTER, WEDNESDAY, AUGUST 21, 1867.

[PRICE 6d. or 12 cts.]

## OUR ENGLISH SUMMARY.

Our English files are to the 4th July, and possess considerable interest. Developments of a startling character have been made before the Sheffield Commission. For long has the public been accustomed to hear of "Sheffield outrages," "Trade Union outrages," &c; but it was reserved for the Royal Commission, appointed in consequence of the blowing up of Fearnborough's house, last fall, to lay bare before a horror-stricken world the full, the terrible import of these announcements. It appears that the Saw-Grinders' Union of Sheffield and the National Society of Associated Trades, numbering some 60,000 members, have been under the immediate direction of the "infamous Broadhead," as he is now termed, during the past ten years, and that a system of crime at once the most diabolical and bloody has marked his able though hellish administration. This man, or wretch, has, it appears, been Secretary of the Saw-Grinders' Union for twenty years, receiving a salary of £100 a year for his services. In consequence of recent developments he has tendered his resignation, which has been accepted. It is not our intention to detail the outrages that have been planned and executed by this wretch and his agents, suffice it to say that the system adopted, and carried out to the bloody end, has been to steal or destroy the tools or machinery of operatives or of manufacturers, in order to coerce them into compliance with the rules of the association; the more extreme penalties attached to non-compliance, with, or opposition to its mandates and interests, being maiming or murder; the operations of the association extending to all who in any way happened to stand in the way of its policy, and it would appear from the confessions of Broadhead, and his numerous agents that the taking of life and the blowing up of buildings were measures frequently resorted to. One of these agents named Hallam frequently fainted during the recital of his horrid tale, and it was only by the repeated administration of stimulants that he was enabled to articulate the story of the mainings and murders he had committed—"in the interest of the trades." While the miserable "pol" was gasping out his confession the more guilty Broadhead was looking on with a countenance of brass. Broadhead himself, thus brought to bay, confessed; but it is believed that he has by no means made a clean breast of it. He remembered having paid from five shillings to five pounds for sundry "jobs" of rattening; (stealing or destroying tools or machinery) from three to ten pounds for blowing up, and from fifteen to thirty or perhaps fifty pounds for the murders! Perhaps the most unsatisfactory part of the story is that these accused villains will go unwhipped of justice, the Commission, as the only means of procuring evidence, having granted certificates giving immunity to the witnesses who make full confession, and give unreserved evidence. Too bad!

Turning with a shudder from a subject so loathsome, we find that an influential deputation had an interview with the Duke of Buckingham, on the 25th June. Upon the deputation were Mr. Roebuck, Viscount Milton, the Hon. C. W. Fitzwilliam, Dr. Cheadle and Mr. Algar, of the *Canadian News*. The object of the deputation was to press upon the Colonial Minister the importance of taking immediate steps for securing the North West Territory to the Crown, by erecting it into a Crown Colony. Mr. Roebuck especially, spoke strongly on the subject. He said the real difficulty was the Hudson Bay Company; a company that had no more right to the territory than himself. "It was," he said "sold recently during

the time of the last Government, and is now in the hands of a company who, having bought it, wish to sell it to the Government of the United States; and, as sure as there is a sun in Heaven, the United States will thrust themselves between us and the Pacific Ocean if some steps are not taken to prevent it." Mr. Roebuck continued, in reply to the Duke of Buckingham, to explain how the transfer of the territory to the United States might be managed by the Hudson Bay Company, unless steps were at once taken to proclaim the Imperial power and authority, and thus put an end to the impression that the company had a right to deal with it. Inducements would be held out for Americans to settle, the territory would soon be over-run with them; and, under universal suffrage, they would declare themselves a territory of the United States, and thus probably nothing short of an expensive war would prevent our being entirely cut off from the Pacific. He did not propose to check the immigration, but simply to take steps by which it would be made an immigration of British instead of American subjects. The climate was healthy and the country most fertile, although the Hudson Bay Company had sent a late Governor before a committee of the House of Commons to swear that on digging six inches into the ground there was ice in the month of July, notwithstanding that the same Governor had written a book twenty years before in which he described the country as a second Arcadia. Dr. Cheadle, Viscount Milton, Lord Wharfedale, Mr. Isister and other members of the deputation also spoke strongly in support of the views set forth by Mr. Roebuck, all agreeing as to the urgency of the subject, and the propriety of erecting the territory into a colony of the Crown and sending out a Governor and staff to take possession. The Duke of Buckingham stated that he expected in a fortnight to receive important dispatches from Lord Monck upon the subject. Meanwhile the law officers of the Crown had the claims of the Hudson Bay Company under consideration. He assured the deputation that the subject had not been allowed to sleep, but had occupied and would continue to occupy the most earnest attention of the Government.

As the smoke of the great gathering of illustrious personages at Paris fades away, journalistic correspondents begin to pick up the fragments. Thus the correspondent of a provincial English journal, writing from Paris, says: "The Czar, we are told, informed the Empress that his wife should certainly pay her a visit ere long; he promised the Emperor, too, nay, swore it, according to the chroniques, on the tomb of the Great Napoleon, in the Invalides—to restore the sword of Napoleon I., which he has among his collection of curiosities, at Tsarko-Selo, we suppose. Has he not also decorated Baron Haussmann? and did he not tell him to his face that the Paris which he had so largely assisted to create was the queen of cities? The Emperor Napoleon's equestrian, whose horse received the bullet intended for the Czar, has also got his ribbon, and his wife has received a magnificent diamond bracelet, valued (say the chroniques again) at 800,000f. How lucky to have been astride, on that particular day, a horse which had the good manners to interpose his nostrils between a pistol-bullet and the heart of the Autocrat of All the Russias! The King of Prussia said and did none of these gracious things. He kept continually asking to have no fuss made with him; and when he went away simply thanked the Emperor Napoleon for the cordial reception he had met with, and left his 40,000f. for the servants who attended on him in the Pavillon Marsan."

### AYER'S Sarsaparilla FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Boils, Blisters, and all Skin Diseases.

J. C. Ayer & Co., Lowell, Mass., June 1867.

Having inherited a scrofulous taint, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out in a most painful and loathsome eruption on my face, neck, and chest, and I was obliged to leave my home and travel in search of relief. I tried many medicines and several physicians, but without much result from my time. In fact, the disease grew worse. At length I was obliged to read in the *Commonwealth* of the existence of an alternative (Sarsaparilla) and I knew from your reputation that any thing you made must be good. I sent to Cincinnati and procured a bottle of it. I took it, as you advise, in small doses of a teaspoonful over a month, and had almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you that I hold you to be one of the saviors of the age, and remain ever gratefully.

ALFRED B. TALLEY,  
St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept. 1866, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of your Sarsaparilla, and also a dangerous Malignant Erysipelas by large doses of the same.

Brotherhood, Gout or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me of a very bad case of swelling on the neck, which I had suffered from over two years."

Liver Disease or Whites, Overlain Tumors, Uterine Obstruction, Female Diseases.

Dr. J. B. S. Channing of New York City, writes: "I have cheerfully and with the renewed use of your Sarsaparilla, I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we employ such remedies. I have cured many inveterate cases of Leucorrhoea by it, and some where the cure was effected by absorption of the virus. The absorption itself was seen cured. Nothing within my knowledge has cured so many cases of this disease."

Edward S. Morrow of Newbury, Mass., writes: "A dangerous ovarian tumor on one of the ovaries in my family, which had existed for several years, and which had been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could be effected, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved successful. As a further proof of its efficacy, it cured a case of the disease in my daughter."

Syphilis and Mercurial Diseases.

Dr. J. C. Ayer & Co., Lowell, Mass., 25th August, 1867.

I have cured with it in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful. In the case of a young lady, who had been afflicted with Syphilis for several years, and who had been treated with mercury and other remedies, I cured her in a few weeks. Another case, a woman who had been afflicted with Syphilis for several years, and who had been treated with mercury and other remedies, I cured her in a few weeks. Another case, a woman who had been afflicted with Syphilis for several years, and who had been treated with mercury and other remedies, I cured her in a few weeks.

Rheumatism, Gout, Liver Complaint.

Dr. J. B. S. Channing of New York City, writes: "I have cured many cases of Rheumatism, Gout, and Liver Complaint, by the use of your Sarsaparilla. It is a most excellent alternative in the numerous complaints for which we employ such remedies. I have cured many inveterate cases of Leucorrhoea by it, and some where the cure was effected by absorption of the virus. The absorption itself was seen cured. WEDNESDAY, AUGUST 21, 1867.

**WHAT ARE OUR FARMERS ABOUT**

Saturday's Gazette contained a statement of imports into the Colony of British Columbia during the quarter ending 25th June 1867. The total value of these imports is \$873,791, by no means a large sum, considered in the abstract, and by no means small when considered in connection with the circumstance of goods being rushed into Victoria last winter, with a view to evading Customs Duties. A perusal of the list of items which go to make up this sum will cause the question which forms our caption to rise to the lips of every thinker. Take, for instance, such items as the following, in connection with the rate of duty by which the local producer is protected:—Bacon and hams, value \$7,587.63, duty 4cts per lb. Barley \$4,013.15, duty 30cts per 100lbs. Beans \$570.13, duty 1ct per lb. Beef, salt, \$697.50, duty 10 per cent. Bran and Shorts \$1,155.52, duty 25cts per 100 lbs. Buckwheat \$55.26, duty 1ct per lb. Butter \$9,546.46, duty 10cts per lb. Cheese \$1,981.66, duty 5cts per lb. Eggs \$184.99, duty 12cts per doz. Flour \$17,076.75, duty 5cts per lb. LARD AND A HALF PER BARREL! Hay \$1,064.00, duty FOUR DOLLARS A TON! Hops \$1,524.85, duty ten cents a pound! Lard \$4,061.12, duty 5cts per lb. Live-Stock \$41,017.50, made up as follows:—8 horses, duty \$2, a head, 12 oxen, duty \$3, 4 bulls, duty \$3, 144 cows, duty \$2, 107 calves, 400 beef-cattle, duty \$3, 2555 sheep, duty 75cts, 68 hogs, duty \$2. Went from \$358.87, duty 20 per cent. Potatoes \$760.51, duty half a cent a pound! Pork \$170.70, duty 10 per cent. Poultry \$188.40, duty 25 per cent. Wheat \$1,936.78, duty thirty-five cents per 100lbs! Oats, \$1,046.82, duty thirty cents per 100lbs! Malt \$171.92, duty 80cts per 100lbs. Here we have articles for the production of which the country is admirably adapted, imported to the value of eighty thousand dollars in three months, or at the rate of three hundred and twenty thousand dollars a year, and that, too, when almost every article is subject to a heavy import duty. What are our farmers about? Growling about not being able to get a market? Impossible! Why, look over the items. No market for hogs, when you are protected by a duty of 4 cents a pound, and nearly eight thousand dollars worth has had to be imported in three months, in order to meet the demand! No market for grain, when, notwithstanding the enormous protective duty in your favor, over seven thousand dollars' worth has been imported to supply the market! No market for flour? Why, man, during the last three months seventeen thousand, seven hundred and seven dollars' worth of the article has been brought many hundreds of miles by sea and land, and has paid the positively enormous import duty of one dollar and a half a barrel, to find a market under your very nose!! No market for butter. Indeed! How then do you account for the importation, in three months, of thirty-three thousand, six hundred and seventy-two pounds of the article, notwithstanding that it has to pay the high duty of 10cts a pound? We hope to hear no more about the absence of markets, demand, protection, encouragement for farm produce, and farming. With these duties in our favor, and these figures against us, what will be thought of us abroad? What can be thought but that we are lazy, on the country worthless for agriculture—neither of which surmises, we are happy to say, would be strictly correct. But there does appear to be an unaccountable hesitancy in the lower country and on the Island about em-

barking in agriculture. This intimation, for we can call it nothing else, about not finding a market, which we are assured keeps many back, can only be likened unto the strange hadination under which some immensely rich persons make their last days miserable, viz. the impression that they are poor even to destitution. The inducements for engaging in farming are greater in British Columbia at the present moment than in any other country with which we are acquainted, and the sooner people see this indisputable fact and act upon it, the better it will be for themselves and the country.

**THE CITY CLERKSHIP.**

It will be seen by reference to another column that the Municipal Council has, in a very summary way and, in our humble opinion, in a very shabby way, appointed a new clerk over the head of an old and faithful civic functionary. We would be the last to wish to do or say anything. The position they have accepted is a calculated to embarrass the Council, troublesome and thankless one; and no one knows that better than ourselves. But we believe we would be guilty of a gross dereliction of duty, both as a rate-payer and a public journalist, did we allow the act to which we have alluded to pass unnoticed. The late Clerk, from long connection with the affairs of the Municipality, as well as from his experience as Clerk, was peculiarly fitted for the office. And we should like to know who had a stronger claim. As a general rule, it is unusual to dismiss or pass over such functionaries except upon the ground of incompetency or disqualification of some sort. In this instance not only is there a total absence of the faintest whisper as to any disqualifying circumstance, but, on the contrary, the very reverse is the case. The outgoing Council warmly acknowledged the faithful and efficient manner in which the duties of the office were discharged last year, while the incoming Council had to admit the fact—how could they do otherwise? During the past year not only has the ordinary current business been correctly and satisfactorily done, but an amount of work has been performed in clearing up old complications, and securing old and outlawed taxes which has resulted in a saving of nearly the entire year's salary of that officer, and which was worth all he received. And yet, for such services as these—with such facts staring them in the face, the new Council, with the same breath that they acknowledged the able and efficient services of an old public servant, elected a new one over his head, without even so much as affording him an opportunity of "competing for the post he had occupied with so much credit to himself and advantage to the Municipality! Shame upon such conduct—conduct which we are sure the rate-payers of New Westminster will not thank the new Council for perpetrating in their name—conduct which we fear has been dictated more by paltry personal spleen than by an honest desire to promote the true interests of the Municipality. It is no more than fair to individual members of the Council to mention that several of them were opposed to, and heartily ashamed of the scurvy treatment noted out to an old, faithful, and most efficient public servant. But a majority being "led by the nose," by the "evil genius" of the present Council, and the whole thing being evidently "cut and dry," it was thought useless to carry the opposition to any great length.

At London, C.W., lately, an incorporate company commenced the manufacture of sulphuric acid. Their present arrangements enable them to turn out at the rate of three or four thousand pounds daily, and their capacity will be in a short time equal to nine thousand pounds daily, or something like 2,730,000 lbs. per year.

The French papers have adopted the word *puissance*, or power, as the best rendering of the word "Dominion"; and *La Nouvelle Puissance*, or the new power, is the designation by which we are to be known in France.

# THE BRITISH COLUMBIAN.

The British Columbian.

WEDNESDAY, AUGUST 21, 1867.

## OUR CANADIAN SUMMARY.

Our Canadian exchanges are to the 10th July; and by no means the least prominent item of news they contain is the sitting, within a fortnight of each other, of two great Reform Conventions at Toronto. The Reform Convention, composed of over six hundred delegates, sent by every Reform Association in the province of Ontario met in the Music Hall, on the 27th June. The Convention was duly organized by the unanimous election of William Patrick, Esq. of Prescott to be Chairman and Mr. Spreull, of Hamilton, to be Secretary. The principal speakers appear to have been the Hon. George Brown and Alexander MacKenzie M.P. The Hon. A. DeCosmos, appeared as the representative of British Columbia in the convention. He was introduced by Mr. Brown, and delivered a very creditable speech, which is reported at length in the *Globe*. The proceedings of the convention were brought to a termination on the 28th June, when a resolution was passed recognizing the principle that the coalition of 1864 could only be justified on the ground of imperious necessity, as the means of obtaining confederation; that the object being attained, the means, being no longer necessary, should have an end, and that the Reform party should now take a distinct stand as a party in the new state of things. When the chairman called for the yeas upon the resolution the entire assembly, with the exception of three individuals, rose to their feet amid enthusiastic cheering. The yeas being called for the three before mentioned individuals raised their hands.

On the 9th July a Convention of Catholic delegates from all parts of the province assembled at Toronto, to consult as to the political action to be taken under the existing aspect of affairs. About two hundred and fifty delegates were present. They resolved to give their vote and influence to the great Reform party of Upper Canada at the coming elections. Thus the last hope of the Tory party is cut off. Dr. Arcey McKee has for months been exerting all his influence and eloquence with his co-religionists in Upper Canada, for the purpose of securing their vote to the Coalition party, and the result of this convention demonstrates with unmistakable clearness how unsuccessful have been his efforts. To all appearance the Reform party will carry everything before them in the province of Ontario, at the approaching contest; and thus the John A. McDonald Government will have anything but a bed of roses to recline upon.

The natal day of the young nation appears to have evoked much loyal enthusiasm throughout the entire Dominion, but especially in the province of Ontario. The *Toronto Globe* of the 1st July has an article on the history and present position and prospect of the Confederation movement. The article occupies eighteen columns, of that paper! On that day Lord Monck took the oath of office, as Governor General of the New Dominion at the capital. Chief Justice Draper administered the oaths. Lord Monck then announced that the Queen had conferred on Mr. John A. McDonald the dignity of K. C. B.; and on Messrs. Howland, McDougall, Cartier, Galt, Tilly and Tupper; that of C. B. The ceremony over, Lord Monck shook hands with the Judges and Sir John A. McDonald, after which His Excellency proceeded to review nineteen companies of Volunteers and two companies of the Rifle Brigade, in Parliament House Square. The review was witnessed by about four thousand people. Lord Monck at once charged Sir John A. McDonald with the task of forming the Privy Council.

Sir Narcisse Belleau has been sworn in as Lieut. Governor of the province of Quebec; and Major-General Stisted as Lieut. Governor of the province of Ontario. The Hon. John Sanfield McDonald has been offered and has accepted the premiership of Ontario. The Intercolonial Railway is to be proceeded with at once. The section

between Truro and Monckson will be first constructed.

By a post office regulation letters for Canada are to be addressed hereafter to the province of Quebec, or Ontario, Canada, instead of Canada East or West, as heretofore.

The militia scheme proposes a force of 150,000 men.

Lord Monck's appointment to the Governor-Generalship of the Dominion of Canada is stated, is only temporary, and that he will be succeeded in about a twelvemonth.

The following was reported in Ottawa, as the programme agreed upon for the Cabinet of the Dominion:—Sir John A. Macdonald, Premier and Minister of Justice.

Hon. A. T. Galt, Chancellor of the Exchequer.

Hon. G. E. Cartier, Minister of Militia.

Hon. A. J. Fergusson-Blair, President of the Council.

Hon. Alex. Campbell, Postmaster-General.

Hon. Peter Mitchell, Minister of Marine and Fisheries.

Hon. H. L. Langevin, Home Secretary.

Hon. A. G. Archibald, Foreign Secretary.

Hon. Wm. McDougall, Minister of Public Works.

Hon. J. C. Chapais, Minister of Agriculture.

Hon. W. P. Howland, Minister of Internal Revenue.

Hon. Mr. Tilley, Minister of Customs.

Hon. Edward Kenney, Receiver-General.

—RETURNED.—The Hon. C. Brew returned from Yale on Monday. He was unable to deal with the question of the water privilege without going to Lytton. Leave has been granted to the party intending to mine on the bench immediately below the town to make use of the spare water. The bench is believed to be rich.

Mr. Brew held Court at Yale, disposing of some half dozen cases, none of which, however, were of an important nature. A Frenchman was convicted of selling liquor to Indians, and fined \$100 for the offence. It is, we think, pretty clear that Mr. Brew ought to be able to dispose of the Yale business by occasional visits, and thus save the expense of a resident Magistrate.

THE LUMBER TRADE.—The steamer Isabel towed a ship into Burrard Inlet yesterday to take a cargo of lumber at Capt. Stamps Mill. The ship Anna Dorothea, which has just arrived from China, will be towed in to the Inlet to-day, to receive a cargo of lumber at Messrs. Moody & Co's Mill, for the Melbourne market. She will carry 600,000 feet. Yesterday the brig Josephine Maria sailed from San Francisco for Burrard Inlet. She also loads at Messrs. Moody & Co's Mill, for the Callao market. The cargos for both these vessels will be paid for in cash at the mill.

ACCIDENT TO THE ALEXANDRA.—A telegram was received in town, on Saturday night, stating that the str. Alexandra broke down on her way to Victoria on Saturday. Her boilers, which were known to be very defective, it would appear, gave out. It will take ten days or a fortnight to get her ready for the route, and we understand the str. Fly will take her place during that time. The Fly was to sail for this place at 6 o'clock last evening, and may be expected to arrive here at 8 or 9 o'clock this morning.

DEPARTURE OF THE GOVERNOR.—A meeting of the Executive Council was held at Government House on Saturday morning, presumed to be in connection with the Grouse creek difficulty. At three o'clock in the afternoon His Excellency the Governor, accompanied by the Hon. W. A. G. Young, the Hon. Mr. Trutch, A. T. Bushby, Esq., and D. C. Maunsell, Esq., sailed for Victoria, on the str. Sir James Douglas. His Excellency is expected to return, with Mrs. Seymour, in about a fortnight.

FROM YALE.—The str. Onward, Capt. Irving, arrived from Yale on Monday, bringing a few passengers but no later news.

## MUNICIPAL COUNCIL.

The Council met at 8 o'clock on Monday evening. Present:—The President (H. Holbrook, Esq.) and Councillors Ferris, Withrow, Seabrook, Armstrong, Smith, Price, Bonson, Ryland and Dickinson. The minutes of previous meeting were read and confirmed.

### COMMUNICATIONS.

A communication was read from Mr. Edmonds, as Major Foster's agent, making application for some nine dollars, being taxes twice paid upon a certain lot, together with costs of suit against Henry Elliott. Also a communication from Mr. Edmonds, applying for the office of Clerk to the Council, offering to perform the duties for \$250.

### REPORTS OF COMMITTEES.

The President reported that according to instructions he had applied to his predecessor to have the balance of unexpended revenue handed over. The late President expressed his readiness to do so, upon the proper vouchers being executed.

### GENERAL BUSINESS.

Councillor Withrow moved, seconded by coun. Bonson:—That the President and coun. Ferris be appointed to examine and report upon the Pile-driver.—Carried.

Councillor Seabrook moved, seconded by coun. Smith:—That Dr. Black and Messrs. Wm. Fisher and John Smeaton be recommended to the Resident Magistrate as a Board of Health.—Carried.

Councillor Withrow moved, seconded by coun. Ferris:—That the sum of \$35, be placed at the disposal of the Board of Works for certain necessary repairs.—Carried.

Councillor Smith moved, seconded by coun. Ferris:—That Mr. Edmonds be appointed Clerk, Assessor and Collector, at a salary of \$250.—Carried.

### NOTICE OF MOTION.

Councillor Armstrong gave notice that he would introduce a resolution at the next meeting of Council to refund Major Foster's taxes &c. Council adjourned till next Monday night at 8 o'clock.

SERVED HIM RIGHT.—An Indian shot a large wolf on Monday evening, on the Brighton Road, about two miles from this city. (The animal weighed 60 pounds.)

THE NEW DOMINION AND ITS DEBTS.—As we have already stated, it is provided that the several provinces shall enter into their relations on 1st July with debts as follows:—Canada, \$35,000,000; Nova Scotia, \$3,000,000; and New Brunswick, \$7,000,000.

The population of Upper and Lower Canada is now in all probability about 3,100,000, that of Nova Scotia 375,000 and that of New Brunswick 300,000. The average debt per head of the population, therefore, will be as follows:—Canada, 20.96; Nova Scotia, 21.33; and New Brunswick, 22.33. The debt of Canada is, it will be seen, proportionately less than that of either Nova Scotia or New Brunswick, although the reverse has generally been supposed to be the case. Canada has invested in canals \$15,500,000; in river improvements, \$3,000,000; in harbors and lighthouses, \$2,500,000; roads and bridges, \$1,700,000; and railways, \$31,130,000—making in round numbers \$54,000,000. In public works New Brunswick has invested about \$4,700,000 and Nova Scotia about \$4,300,000.

"How that red rain hath made the harvest grow."—Nearly all the battle fields around Richmond, United States, are now sown with grain.

If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 422 Montgomery street, San Francisco.

GOOD ACCOMMODATION.—Traveller to Cariboo this season will find most comfortable quarters at the Colonial Hotel, Soda Creek, the enterprising proprietors Messrs. McLeese & Senay being prepared to afford to those who may favor them with a call increased accommodation at a much less cost than hitherto.

### NOTICE TO LOT OWNERS.

PROPOSALS will be received until the 18th inst., by the Hon. Secretary of the N. W. Dramatic Club for the sale or lease of a lot suitable as a site for the projected new Theatre and Ball Room, situated in the city of New Westminster, within a radius of 300 yards from the junction of Columbia and Mary Streets. W. C. BERKELEY, Sec. Sec. N. W. D. Club

None but a physician knows how much a reliable alternative is needed by the people. On all sides of us, in all communities everywhere, there are multitudes that suffer from complaints that nothing but an alternative cures. Hence a great many of them have been made and put abroad with the assurance of being effectual. But they fail to accomplish the cure they promise because they have not the intrinsic virtues they claim. In this state of the case, Dr. J. C. Ayer & Co., of Lowell, have supplied us with a compound Extract of Sarsaparilla, which does prove to be the long desired remedy. Its peculiar difference from other kindred preparations in market is that it cures the diseases for which it is recommended, while they do not. We are assured of this fact by more than one of our intelligent Physicians in this neighborhood and have the further evidence of our own experience of its truth.—*Tennessee Farmer, Nashville, Tenn.*

HOLLOWAY'S OINTMENT.—Soundness renewed.—Any indolent ulcer or chronic sore should immediately have this excellent ointment applied to it in the manner pointed out in its accompanying directions. For thoroughly cleansing a diseased or broken skin, and for rousing its poisoned vessels or depressed nerves to healthy action, nothing can surpass Holloway's well-known Ointment. It strikingly shows its power when applied to the "old man's ulcer," which settles in the leg and often becomes most intractable under ordinary treatment, though no case has yet withstood this cooling and healing salve. The troublesome swellings preparatory to most ulcerations of the legs are likewise reduced by the diligent application of Holloway's ointment, by giving strength to the weakened circulation through the capillaries.
